Hearing Aid Compatibility Status Report (FCC Form 655)

Reporting Period: January 1, 2015 - December 31, 2015

Filing Confirmation Number: 0007083946

Filing Deadline: January 15, 2016

FRN: 0001618008

Filing Date: 01/05/2016 02:15 PM

General Report Information

Type of Company

Service Provider

De Minimis Exception

Did you offer any handsets to subscribers in the United States during the reporting period? Yes

Have you been offering handsets in the United States for at least three years prior to the end of the reporting period? Yes

Date that you began offering handsets in the United States

Are you a small entity? Yes

Were you a small entity at any time during the three years prior to the end of the reporting period?

Date that you ceased to be a small entity?

Company Information

Company Name: Leaco Rural Telephone Cooperative, Inc
Brand Names: Leaco Rural Telephone Cooperative, Inc
PO Box:
Street Address: 220 W Broadway
City: Hobbs
State: NM
Zip Code: 88240

Contact Name: Sid Applin
Contact Phone: (575) 370-5010
Contact Fax: (575) 433-4779
Contact Email: sapplin@leaco.org

Filing Agent

Is this report being filed by an agent on behalf of a manufacturer or service provider? No

Product Labeling

Do all hearing aid-compatible handsets include labeling? Yes

Explain:

Do all hearing aid-compatible handsets that were tested under ANSI C63.19-2007, and that are capable of voice

communication over any air interface or frequency band that does not have hearing aid compatibility technical standards under ANSI C63.19-2007, include the required language disclosing that the handset has not been rated for hearing aid compatibility with respect to such operation?

Yes

Explain:

Do all hearing aid-compatible handsets that were certified only under ANSI C63.19-2007, but that the manufacturer also tested and found not to meet hearing aid compatibility requirements under ANSI C63.19-2011 for one or more operations that are not covered under ANSI C63.19-2007, include language informing users by clear and effective means that the handset does not meet the relevant rating or ratings with respect to such operation(s)?

Yes

Explain:

Do all handsets that are capable of use for Voice over LTE, and that were certified for inductive coupling capability under ANSI C63.19-2011 without being tested for inductive coupling capability over VoLTE, include language disclosing that they were not tested with respect to this operation?

Yes

Explain:

Do all handsets that meet the criteria for an M3 rating by allowing the user to reduce the maximum power for GSM operation in the 1900 MHz band include the required disclosure?

Explain:

Public Website

Does your company maintain a public website describing all hearing aid-compatible models, the ratings of those models, and an explanation of the rating system? Service provider websites must include the levels of functionality that the service provider has defined, the level that each hearing aid-compatible model falls under, and an explanation of how the functionality of the handsets varies at the different levels.

Yes

Website address: www.leaco.net

Explain:

Consumer Outreach

Describe consumer outreach efforts in the past 12 months: Leaco maintains a public website displaying its entire selection of handsets and devices, including those that are HAC-compliant. Sales staff are trained to assist existing and prospective customers in identifying HAC compatible handsets and devices. Existing and prospective customers can typically find whether a handset or device is HAC compatible by either checking the packaging containing the handset or device, or by consulting the packaging insert or operations manual. For more information on HAC, customers are also directed to www.accesswireless.org/disability-categories/hearing.aspx and other public websites dedicated to HAC education.

Methodology for Functionality Levels

Leaco offers HAC compatible handsets and devices in all major price and feature categories, including low cost and features (C Level, generally less than \$100); moderate cost and features (B Level, generally \$100-\$250); and high end/feature rich (A Level, generally greater than \$250). Costs generally correlate with the number of features, but, if through experience, Leaco finds that a certain handset contains features that work well with hearing aids, such as volume control, it will be labeled accordingly at the high end, feature rich or A level for functionality. Sales staff are trained to assist all existing and prospective customers looking for a HAC compliant device or handset. HAC compatible handsets and devices vary in their inherent levels of functionality, but typically at least one HAC compliant handset or device with features and services typical of its price category can be found that meets each customers price range.

Report Remarks

You have reported the following handset model summary information.

Total number of handsets offered: 19

Air Interface	Fully Hearing Aid Compatible		Acoustic Coupling Compatible Only		Non-Compliant Handsets		Total by Air Interface
	Number	Percent	Number	Percent	Number	Percent	
GSM	1	100%					1
CDMA	14	74%	4	21%	1	5%	19

Handset 1: HTC ADR6290 One V

Handset Maker

HTC

Handset Model Name

ADR6290 One V

FCC ID
